SNOW ALERT

Our Public Works Department is working hard to make driving safer and easier in snowy weather conditions. Borough trucks may plow your street several times during these inclement times. As snow rolls off our plows, it will accumulate in driveway aprons and on sidewalks. Please understand that this is unavoidable and we apologize for any inconvenience you may experience while clearing your driveway after the plows have passed.

To ensure safety of pedestrians, residents must remove snow from sidewalks following a snowfall. During recent storms the Public Works Department observed and notified residents using snowblowers to blow all snow on lawn areas. Also, we ask that residents do not shovel the snow back on to the street. Please throw snow back onto lawn areas towards your homes. Once an area is plowed curb to curb, that area is considered finished and will not be plowed again if snow is being thrown back into the street.

Here are some helpful hints to make "snow" business less frustrating:

- Shovel the snow to the right of your driveway (facing the street, left when facing your home) to minimize the amount of snow entering your driveway.
- If possible, wait until borough trucks have made at least three passes on your street before clearing your driveway.
- If possible, do not park cars on the street from one hour after snow has continuously fallen until 12 hours after snow has stopped. This speeds the removal process and prevents cars from being snowed in.

Please remove portable basketball courts from the street or parking strip. The borough is not responsible for any damages incurred due to plowing. Facts: It takes sunlight and traffic in addition to salt and sand to completely remove ice and compacted snow from roadways. The average car length is 14 feet. If parked on the street during a snowstorm, the area that would have to be shoveled to park in front of a clean curb is 42 feet. The average driveway apron is 12 feet. A total of 30 feet of non-shoveling area would be gained if residents who have driveways use them. We thank you for your cooperation.

Please call 856-931-1111 with any questions.

NOTICE DURING SNOW STORMS

In the event of a snow storm, the Bellmawr Highway Department is asking all residents who have portable basketball courts to remove them from the curb and street during snow storms, because of liabilities. This enables the plows to come down the street with no obstacles to hinder our plowing procedures. We ask that residents shovel snow within 12 hours after the storm has ended.

FIRE PREVENTION MONTH

October is Fire Prevention Month. The goal of Fire Prevention Month is to raise fire safety awareness and help protect homes and families.

This year's official theme is
"Smoke alarms:
make them work for you!"™

The focus on working smoke alarms comes in response to data from the National Fire Protection Association® (NFPA®), which shows that the majority of U.S. home fire deaths continue to occur in homes with no smoke alarms or no working smoke alarms.

Having working smoke alarms in the home reduces the risk of dying in a home fire by more than half (54 percent). However, roughly three out of five fire deaths occur in homes with either no smoke alarms or no working smoke alarms. More than one-third (38 percent) of home fire deaths result from fires in which no smoke alarms are present.

Key messages for this year's Fire Prevention Week theme, "Smoke alarms: Make them work for you!" include the following:

- Install smoke alarms in every bedroom, outside each separate sleeping area (like a hallway), and on each level (including the basement) of the home.
- Make sure smoke alarms meet the needs of all family members, including those with sensory or physical disabilities.
- Test smoke alarms at least once a month by pushing the test button.
- Replace all smoke alarms when they are 10 years old or don't respond when tested.

Don't forget to stop by the Fire Department table at the Fall Festival!

DAYLIGHT SAVING TIME

Daylight Saving Time ends for the year at 2 a.m. on Sunday, November 3rd. When you set your clocks back, don't forget to check the batteries in your smoke detector!

ANSWER TO LAST EDITION'S TRIVIA QUESTION.

Last time, we asked if you remembered what business formerly occupied 101 N. Black Horse Pike before it was converted into an Extra Space Storage facility. **Answer: Bellmawr Furniture.**

Blast From the Past:

The Bellmawr Haunted Hayride was a true community event that was held in October from 1998 through 2003. It took place at the former Bellmawr Ecological Center along Creek Road (at the edge of the former landfill.) From the very beginning, this event provided both young and old a chance to celebrate fall. For little ones, a stage was set up inside the Bellmawr Ecological Center for an "Inside Show," where scenes from The Wizard of Oz, Hocus Pocus, and Peter Pan were performed. For those feeling a little more adventurous, guests boarded hay wagons pulled by tractors that made their way through hills and trees only to be encountered by chainsaw-wielding creatures, tunnels,

graveyards, mazes, clatter bridges, and creepy crawlers. A small fee was charged to carloads of visitors who came from all over South Jersey. The proceeds were donated to local organizations that participated in the event. The cast of the "Inside Show" also visited the students at Larc School to perform a special version of the nightly show. To everyone who was involved in the Haunted Hayride and Show, we thank you for your participation.

Special thanks to DPW Director Joe Ciano for providing the background and photos from the Bellmawr Haunted Hayride.
